

Attractive Cosmetic Display Unit in Shopping Mall

When people visit a shopping mall which articles attract them more, the ones that are kept in a pile tangled up in each other or the ones that are well organized and are laid out properly in shelves and display boxes? My guess, customers first walk towards properly laid out items and more-or-less ignore the articles that are kept in bundles unless they are on sale, isn't it?

Well, this is why malls work extra hard to organize their stuff. Because the articles that are displayed categorically and are well organized are easy to sort through and hence attract people, while the other articles that are bundled up and are kept in a pile, need time to be looked through and hence tend to be ignored. So, this is why your malls need acrylic display stands.

Shopping malls and various different brands can benefit from these cosmetic display units by using them for displaying their stuff. And this is because the categorically displayed stuff will attract customers and will assist you in selling more items! Come let's learn some about it in detail!

What is a cosmetic display unit?

Our cosmetic display unit is basically like a designed box or a little rack that the shopping malls utilize to store their stuff. We make them from metal, wood, and acrylic as per your need.

These units are commonly kept on the [cosmetic display counters](#) and are used to hold up makeup and accessories like brushes, liners, compacts, nail prints, lipsticks, bangles, earrings, neckpieces, bags, sunglasses, hairbrushes, anklets and a lot more. By using these cosmetic display units the items displayed look tidy and well-organized which in turn pleases and attracts customers.

Also, when accessories are put on cosmetic display units, they are safe and protected as there is no need to time and again take them out and keep them back in when a customer asks to see them. This reduces the chances of accidental damage.

Why do the malls need it?

The shopping malls require these cosmetic display units because-

- Because the items displayed this way look attractive and more beautiful. Hence they catch the attention of customers more easily.

- This way the accessories stay safe and protected from the reach of careless people who might otherwise break or damage them.

- Since items are pinned in a place where the customers can easily see them, the staff remains free from the hassle of time and again taking it out and keeping it back in. This lessens the need for a lot of staff.

- OEM and printing your advertisements on the cosmetic display units prove to be a better method for attracting the attention of the customers.

This is why a cosmetic display unit is useful for malls. So if you are too interested in buying them, then check out our website and contact us. We can even customize them according to your wishes. And the best part, we provide cosmetic display units in wholesale also! So, hurry!

Product Description

Product Type	acrylic nail polish display stand
Product Name	Attractive Design OEM wooden makeup cosmetic retail display counter

Model No.	DT-C04
Size	165x205x190mm or customized
Main material	Acrylic
Color	White,Black,Red,Etc.
MOQ	100PCS
Thickness	2~5mm
Sample time	7~12Days
Production time	25~30 Days
Surface Finished	Powder Coating/Painting/Chrome
Process	cut-bend-shape-polish-painting-packing
Delivery Terms	EXW,FOB,CIF
