3.The□□□□□□□□□□□□□□□□□□□□□□

1. The first step is to identify the product and its dimensions. This is crucial for determining the size and type of box needed.

2. The next step is to select the appropriate materials. This includes the cardboard, the liner, and the tissue paper.

3. The final step is to assemble the box. This involves placing the liner, tissue paper, and product into the box, and then sealing it.
